

Environmental Policy Statement

It is the policy of SOLVENTIS to meet and exceed customer and other relevant interested parties' expectations in all aspects relating to our development, distribution, manufacturing and sales operations.

SOLVENTIS and ALL Employees / Agents and Suppliers of Goods and / or Services will be committed to:

1. Comply with current environmental legislation, regulations and codes of practice. Including but not limited to The Environmental Protection Act 1990 and the Clean Air Act 1993;
2. Deliver solutions to our Clients that provide their best business value to reduce their Environmental impact, Energy and Carbon footprint;
3. Ensure our Providers comply with our policies regarding environmental issues;
4. Use environmental and sustainable procurement and disposal of articles and services purchased in the completion of the Companies business;
5. Provide the right organisation & resources and employ the right people to ensure an effective environmental performance;
6. Identify opportunities and implement continual improvement

SOLVENTIS is committed to achieving continual environmental performance improvement and efficiency using, for that purpose, the business management system based upon ISO 14001, which is laid out in the Business Management System Manual and SOLVENTIS' Process Diagrams. This Policy and the environmental objectives and performance indicators will be documented and reviewed at least yearly, at the Management Review Meetings. To achieve our goals, it is vital that the Business Management System is understood, accepted and adhered to by everyone in the company and as such it is part of our training programme for all levels within the organisation.

The implementation of the Business Management System is mandatory, but its success can only be achieved by the participation and commitment of everyone. Each employee will receive full support to ensure the Management System is understood, implemented and maintained throughout.

The Business Management System functions will be maintained and improved through monitoring, audit and review.

Signed

David Lubbock
